Career Experience Timeline (8 roles recorded)

Role & Organization	Tenure / Duration	Details & Scope
Founder DeepLearning.AI	Jun 2017 – Present	DeepLearning.AI provides technical training on Generative AI, Machine Learning, Deep Learning, and other topics. We also offer a widely read newsletter, The Batch (thebatch.ai), that covers what matters in AI right now. Our courses are often created with industry-leading AI co...
Managing General Partner AI Fund	Jan 2018 – Present	AI Fund is a venture studio that partners with entrepreneurs to build AI companies that move humanity forward. We don't just provide capital, we actively help build the company: we seek to play at least a minor co-founder role in the companies we engage in. After identifying a...
Executive Chairman LandingAI	Oct 2017 – Present	LandingAI delivers Document Intelligence via Agentic Document Extraction and other solutions. Enabled by the transformer neural network (created by the Google Brain team), the Generative AI revolution has arrived in text processing. We see a similar a revolution coming in visu...
Co-Founder and Chairman Coursera	Jan 2012 – Present	Coursera (NYSE: COUR) envisions a world where anyone, anywhere has the power to transform their lives through learning. Coursera had started with my Machine Learning class and a nascent online education product I had built at Stanford. I served as the company's Co-CEO in the earl...

Adjunct Professor of Computer Science Stanford University	Sep 2002 – Present	I was the Director of the Stanford AI Lab (https://ai.stanford.edu/), home to 20+ faculty members and research groups, and a tenured professor in Stanford's Computer Science department. More recently, I switched to an Adjunct Professor role. My research group's work focused on...
Member of Board Of Directors drive.ai	Jun 2017 – Jun 2019	Drive.ai built and operated a fleet of self-driving cars, and was successfully acquired by Apple.
Chief Scientist & VP Baidu, Inc.	May 2014 – Apr 2017	I led Baidu's AI Group, a 1,300 person team including 300 in Baidu Research, and was responsible for the company's AI technology and strategy. My team built Baidu up to be China's leading AI company of its time. The AI Group delivered dozens of AI projects that significantly i...
Founder and Lead, Google Brain (Deep Learning) project Google	Jan 2011 – Dec 2012	I started and led the Google Brain team, which helped Google transform into a modern AI company by developing advanced Deep Learning technology, and moving the company to adopt it for numerous business applications. The Google Brain team's success was the inspiration for many oth...
